

Saskatoon Airport

MANAGER, AIRPORT DEVELOPMENT

Do you want to work for ***the Best Airport in North America (under 2 million passengers)?***

Skyxe Saskatoon Airport was awarded this honor by the Airport Council International in 2016, and we are committed to be the most valued airport experience in Canada.

We continue to focus on our guests, working with our airport partners, we are dedicated to provide our guests with an outstanding level of service quality with enhanced facilities, services and infrastructure. Skyxe invites applications from qualified individuals who are looking to be part of a dynamic team, for the position of Manager, Airport Development.

Typical Duties:

Reporting to the President & CEO, the Manager of Airport Development has overall responsibility to lead the organization in strategic, master, capital and process planning through a dynamic period of growth. As a member of the Management Team, the Manager works closely with all team members in planning the short and long term direction and guiding the strategic planning to successfully achieve corporate targets. This position has full responsibility for project management leadership and oversight to both internal and external contracted project teams. Capital and asset investment planning including the planning and execution of strategic initiatives is required to deliver projects in accordance with defined performance targets and best practice policies. Key community relationships must be developed and nurtured to identify partnering opportunities for key infrastructure and airport expansion opportunities.

The Manager of Airport Development will evolve and implement project implementation disciplines that build organizational capability to fulfill our mandate effectively and efficiently. A visible leader and contributor with a focus on operating in a safe, secure and efficient manner, the Manager will bring a positive, innovative and results-driven approach to project delivery and continuous improvement.

For a comprehensive Executive Brief please visit the **Careers** section, located under the **About Us** menu option on our website www.skyxe.ca

Education and Professional Experience:

- Post-secondary graduate of engineering or related education program and/or designation in engineering.
- Project Management Professional designation preferred but not essential.
- Minimum 5 years of experience in commercial construction, engineering, or industrial services.
- Knowledge of technical standards, publications and regulations pertaining to airport, aviation and related agency operations is beneficial.
